**How can language divide and unite people?**
Getting Started

What If?

The principal of your school wants to raise test scores. He decides that all students must learn a new language called “Babble.” The principal feels that learning this language will increase students’ critical thinking abilities and that will increase their test scores.

Once the students learn Babble, they are forbidden to speak any other language in school. Students who use the language correctly are rewarded with parties. They all speak Babble at the parties. Those who don’t speak Babble well are not invited to the parties. Instead they have to spend more time studying Babble.

Make notes about how this would affect you.

- How would you feel about having to use this new language?
- How could this language unite you with people?
- How could it separate you from people?

Connect to The Exchange Question  Discuss how this situation could relate to The Exchange Question: How can language divide and unite people? Summarize your discussion.
Introduction

The Introduction includes information about

• why the Navajo language was used in WWII
• how the Navajo code works
• why the author wrote the book

After you read the Introduction, answer these questions to check your understanding.
